

"Stay Home, Stay Healthy"

Here is an opportunity to showcase your skills by writing a Tutorial article during COVID 19 lockdown.

Benefits of writing a Tutorial article.

One 'BEST TUTORIAL ARTICLE' award will be given with a cash prize of Rs 2000/-

One award will be given for every 10 articles received.

A well articulated tutorial article will be highly useful for both teaching and student community who wish to carryout innovative projects.

All tutorial articles will be published after peer review

What is a tutorial article?

A tutorial is one which explains any experiment / project / difficult subject in a very easy and clear manner such that even persons from other domains can understand and practice.

It motivates researchers/ students to carry out inter disciplinary research projects.

It is understandable to all, so that interdisciplinary research projects can be done.

It is on topics of all disciplines of engineering, science and technology.

How to write a tutorial article:

Tutorial article need not follow any general paper format. However it should contain abstract, description about the project/experiment ,Conclusion and references .

It can have a maximum of 15 pages.

All tutorial articles will be accepted after peer review

A tutorial article given in the following link can be used as reference.
